Appendix A – Financial Estimates

2024/25 Financial Estimates

General Fund

The following result is projected for the City of Coffs Harbour's General Fund:

GENERAL

| Year | Net Operating Before Capital (\$'000) | | Net Operating After Capital (\$'000) | |
|---------|---|---------|--|---------|
| 2024/25 | 28 | Surplus | 20,960 | Surplus |
| 2025/26 | 493 | Surplus | 13,367 | Surplus |

Operational incomes and expenditures are tightly budgeted and have been subject to constant scrutiny in recent years.

There are significant capital works planned which are funded from rate variations, trading operations, grants, loans, S7.11 contributions, reserves, etc.

- 2024/25 Funding from Levies and Special Variations to General Income is detailed in Appendix B of this document.
- Annual Charges for 2024/25 are detailed in the City's Statement of Revenue Policy.

Appendix A – Financial Estimates

2024/25 Financial Estimates (continued)

Water and Sewer Funds

Both the Water and Sewer Funds have undertaken substantial programs of capital works in recent years. These works have been essential to maintain the integrity of the infrastructure and liveability of our city. These programs have been funded by a combination of loan funds, developer contributions, reserve funds and grants.

Water and Sewer charges have been held to reasonable increases in recent years, despite the significant loan repayments that require to be serviced. The Delivery Program provides for operating surpluses in the Sewer and Water Funds. Details are set out below:

WATER

| Year | Net Operating Before Capital (\$'000) | | Net Operating After Capital (\$'000) | |
|---------|---|---------|--------------------------------------|---------|
| 2024/25 | 4,013 | Surplus | 7,142 | Surplus |
| 2025/26 | 4,825 | Surplus | 8,047 | Surplus |

SEWER

| Year | Net Operating Before Capital (\$'000) | | Net Operating After Capital (\$'000) | |
|---------|---|---------|--|---------|
| 2024/25 | 8,239 | Surplus | 11,212 | Surplus |
| 2025/26 | 9,036 | Surplus | 12,099 | Surplus |

These surpluses are primarily due to reducing loan repayments along with growth in assessments and increased developer contributions. A number of water and sewer strategies including developer servicing plans will be finalised over the coming 12 months to update the pricing pathway, asset management plans and long term financial plan for Water and Sewer.

Appendix B – Statement of Borrowings

Proposed Loan Borrowings for 2024/25

• No internal or external loans have been proposed for 2024/25.

The City recognises that loan borrowings for capital works are an important funding source for Local Government and that the full cost of infrastructure should not be borne entirely by present-day ratepayers, but be contributed to by future ratepayers who will also benefit.

The City will restrict all borrowings to expenditure on identified capital projects that are considered by the City to be of the highest priority, and which are unable to be funded from revenue, reserves, or unrestricted cash.

Appendix C – Allocation of Special Rate Variation and Levy Funds

2024/25 Funding from Levies and Special Variations to General Income

Over recent years, the City has secured NSW Government approval on a number of occasions for Special Rate Variations (SRVs) to generate funding for specified priority projects.

It is City practice to identify SRV allocations each year in the Operational Plan and then account for SRV expenditure in the subsequent Annual Report.

2014/15 to 2016/17 "Financial Sustainability" Program

The City applied for a Special Rate Variation – to be phased in over three years - to help meet a \$6.2m shortfall in annual funding for asset maintenance and renewal to support the delivery of services desired by the community.

The Independent Pricing and Regulatory Tribunal (IPART) approved the

SRV in two stages, the first year being 2014/15. The approval was subject

to the following conditions:

- 1. That Council uses the additional income for the purposes of funding the program of maintenance, rehabilitation and renewal of infrastructure.
- 2. Council reports in its Annual Report for the period 2014/15 to 2023/24 on:
 - The program of expenditure that was actually funded by the special variation and the reasons for any significant differences from the program listed in Appendix A of IPART's Determination; and
 - b. The outcomes achieved as a result of the special variation.

In May 2015, IPART announced its approval of the remainder of the SRV package to be implemented in 2015/16 and 2016/17, with the following consent conditions:

- 1. The Council uses the additional income for the purposes of funding the proposed program of expenditure (Proposed Program) set out in Appendix A of "Coffs Harbour City Council's application for a special variation for 2015-16".
- 2. The Council reports in its Annual Report for each Year, from Year 2015-2016 to Year 2024-2025 (inclusive) on the following for that Year:
 - a. The program of expenditure that was actually funded;
 - b. Any significant differences between the Proposed Program and the program of expenditure that was actually funded and the reasons for those differences;
 - c. The outcomes achieved;
 - d. The Council's actual revenue, expenses and operating balance;
 - e. Any significant differences between the Council's actual revenue, expenses and operating balances and the revenues, expenses and operating balance forecasted in the Long Term Financial Plan and the reasons for those differences; and
 - f. Any corrective action taken, or to be taken, to address any differences reported.

Continued next page.

Appendix C – Allocation of Special Rate Variation and Levy Funds

| Year | Approved SRV* |
|---------|---------------|
| 2014/15 | 7.90% |
| 2015/16 | 8.14% |
| 2016/17 | 7.75% |

^{*}Includes approved 'rate pegging' allowance

The SRV package generates additional ordinary rate funds to address the City's annual General Fund infrastructure maintenance and renewal gap. The following table shows the proposed allocation of works for these additional funds in 2024/25 across particular asset categories and expenditure.

"Financial Sustainability" Program

Total "Financial Sustainability" Allocations

| | 2024/25 (\$) |
|---|-------------------|
| Road Pavement Renewals | |

| Sub Total | 736,537 |
| | |

Please Note: This is a preliminary program based on preliminary investigations. Changes may be required subject to geotechnical investigation and further asset deterioration. These figures include \$2,809,750 of grant funds.

9,769,893

Appendix C – Allocation of Special Rate Variation and Levy Funds

Environmental Levy for 2024/25

The Environmental Levy (a Special Rate) is calculated with a 'base amount' to raise approximately 47% of the levy with the balance raised as an ad valorem rate applied to land values. The purpose of the Environmental Levy is to fund environmental works, and it is levied on all rateable land.
